**WHAT WE DO:** eLearning Development, Video and Audio editing/production & technical services for live online courses, as well as Learning Management Systems development/administration.

**TOOLS WE USE:** Adobe Captivate, Articulate 360 (Storyline, Rise & Studio), TechSmith Camtasia, OBS, Final Cut Pro, Adobe Premiere Pro, Adobe After Effects, Adobe Illustrator, Adobe Audition, Audacity, Adobe Photoshop, iSpring, Lectora, H5P, Moodle, Webflow, JavaScript, HTML/CSS etc.

**FUTURE ACTIVITIES:** Expanding the team into full production services, podcast production, recording studio.

**VIDEO EDITING.** We provide video editing and production services for any type of learning video content.

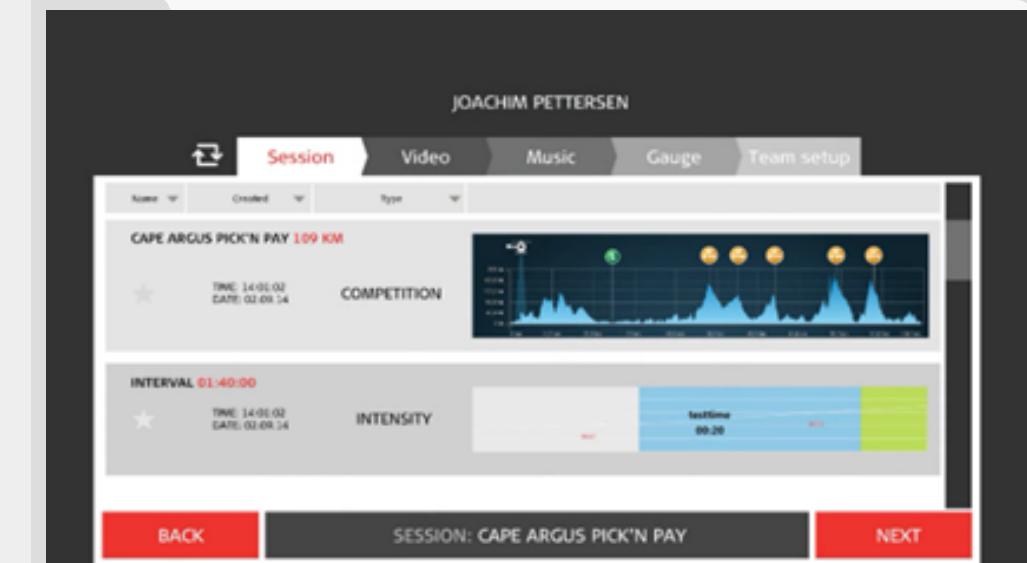

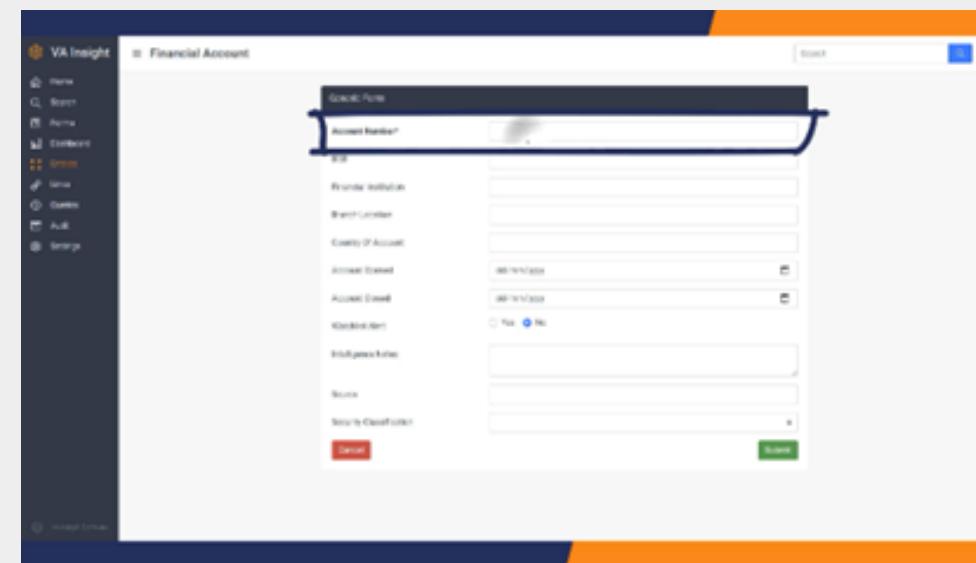

**STREAMING SUPPORT.** Live remote support & assistance during a session. We take care of everything - fully remotely. Although all our services can be done remotely, we also offer on-site consultancy services for additional support.

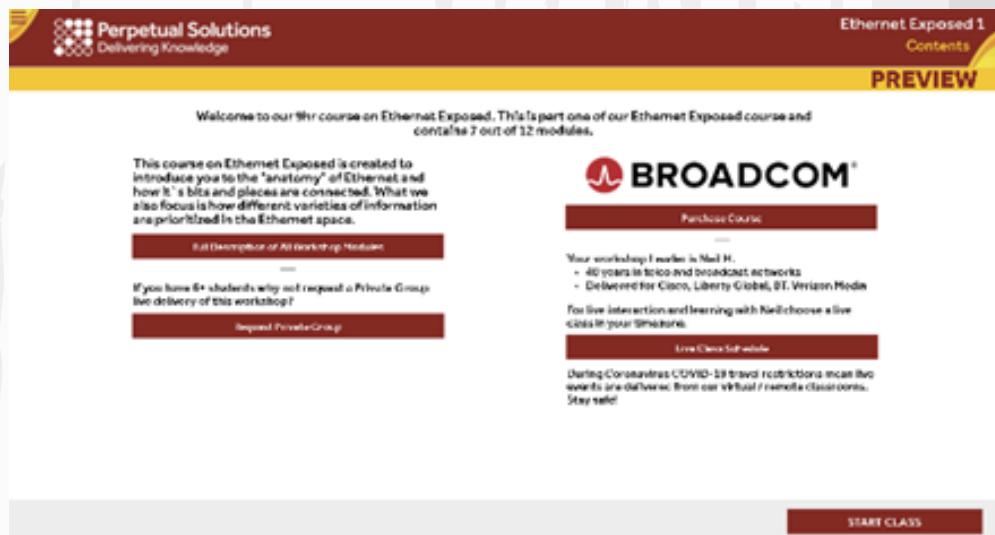

**VIDEO PRESENTATIONS & SCREENCASTING.** Learning videos, tutorials & how-to's for your application, system, or website.

The Future Of HR = Paperless  
Remember to balance the digital with the personal!

The future of your human resource department is paperless, executed completely online by the grace of digital advancements

## ELEARNING VIDEOS. We develop eLearning video courses for your LMS (SCORM Package).

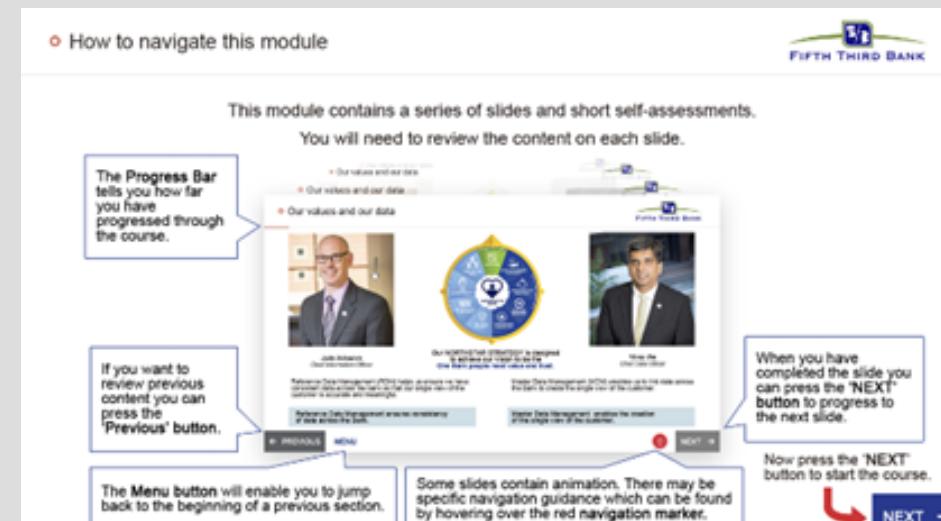

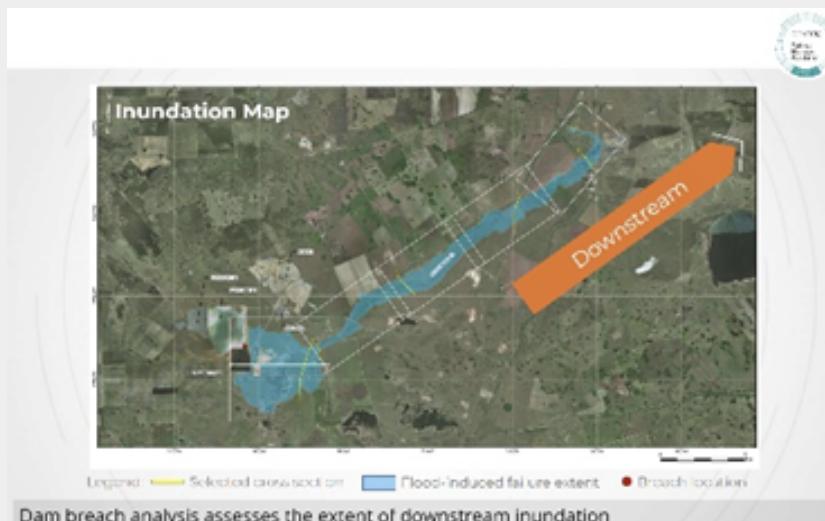

The screenshot shows a video player interface for an eLearning course. At the top, it says 'Perpetual Solutions Delivering Knowledge' and 'Ethernet Exposed 1 Contents PREVIEW'. The video content is titled 'BROADCOM' and features a man in a blue shirt and tie. The video player has a 'START CLASS' button at the bottom.

## ELEARNING PRESENTATIONS. Making presentations more interactive and trackable on the LMS.

The screenshot shows a slide titled 'How to navigate this module'. It includes a 'Fifth Third Bank' logo and a progress bar. The slide provides instructions on how to use the course navigation, including the 'NEXT' and 'PREVIOUS' buttons, the menu button, and the progress bar. It also mentions that some slides contain animation.

The screenshot shows a slide titled '4 Родова јднаквост Презентација на родовиот систем'. It features a purple background with text in Bulgarian: 'Родовиот систем не е фиксен, туку е променлив низ историјата, но и географски во различните култури. Тоа значи дека луѓето можат да влијаат врз зголемување или намалување на родовите нееднаквости во дадена култура.' Below the text is a slide with a purple background and yellow text: 'Жените во најголем дел од светот немале право на глас до средината на 20 век.'

Managing Operational Risk

Welcome to Managing Operational Risk. You have the option to bypass the lessons in this module by selecting the Test Out option. In order to demonstrate your understanding, you must complete an assessment with a score of 100%. You can only attempt the Test Out once. If you exit during the test or fail to achieve 100%, you will be required to take the full course. If you select the Course option, you must get 50% to pass.

Take me to the:

My commitment to implementing key drivers

The objective of this activity is to pledge your commitment to delivering exceptional customer service as it relates to the business you now lead or today. This commitment should be to both customers and your fellow team members.

- Make it easy and specific for customers to express frequent issues and let them know how you are addressing it.
- Ask questions to understand individual needs when customers have more than one issue.
- Make time to understand and meet individual customer needs before business has completed its transaction and begins moving on.
- Answer all customer questions and concerns by responding in a timely manner with clear next steps.
- Discuss and describe support and educational tools available for your team to implement, connect customers with each other to share resources and support.

Business customers include the new enhanced website and application areas of interest, but there have also been a Facebook and Twitter page with more customer friendly, including customer support.

Guitar Theory

Acoustic guitars have several acoustic guitar groups: electric and acoustic guitars; necking patterns which include the flat-top, or "folk", guitar; banjo; electric guitar; and the acoustic steel guitar. The acoustic guitar group also includes unamplified guitars designed to play in different registers, such as the acoustic bass guitar, which has a similar tuning to that of the electric bass guitar.

# LEARNING MANAGEMENT SYSTEMS. Development & administration of Learning Management Systems.

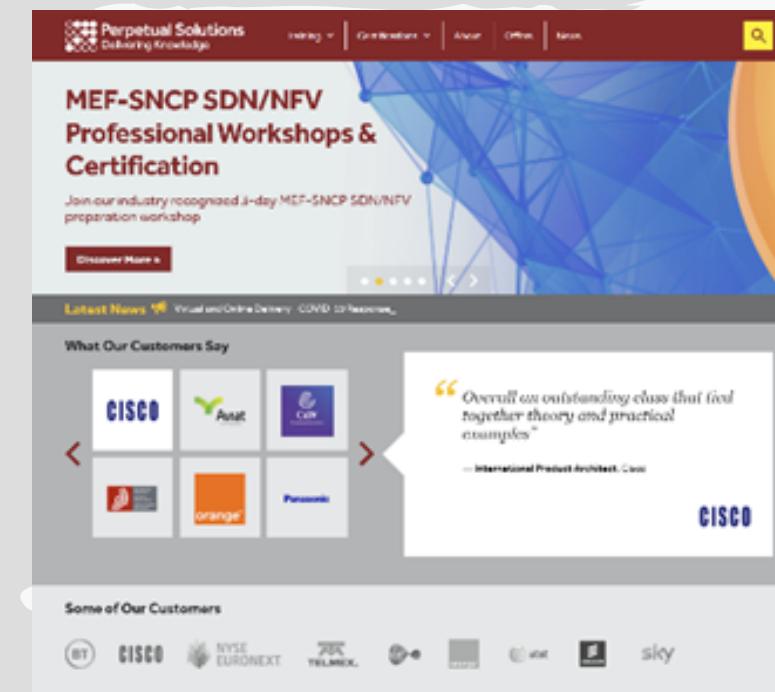

Evidenced-based online education modules for Australia's health professionals to help improve knowledge about bone health and osteoporosis management. A better understanding of patient risk and latest evidence-based management techniques will help reduce the burden of this chronic disease nationally. Accredited CPD points apply.

General Practice

NEW CPD accredited online learning module for GPs. Hosted via ThinkGP website. This module reviews the main inquiries from GPs regarding investigation and treatment of osteoporosis to help reduce unwanted fractures. Multiple case studies included.

IAEA International Atomic Energy Agency

CLP4NET, the Cyber Learning Platform for Network Education and Training, allows users to easily find educational resources related to topics ranging from nuclear energy, nuclear safety and nuclear science and technology. It contains instructor led courses and e-learning self-study resources and is provided to the interested public as a cost-free service.

CLP4NET aims to facilitate sustainable education in the nuclear sector by partnering with local development and dissemination of high quality e-learning resources and learning environments, in a way that is cost-effective, reliable and easy to use. Its main components:

- Self-directed Learning Management System – designed to provide learning self-study materials for a wider audience
- Instructor-led Learning Management System – developed to support and enhance instructor-led training courses for closed groups of students with online learning management features.
